Shrink Wrapping Services

the integrity of shrink wrap is not guaranteed in winds over 50 mph and is only designed to last one season. Wraps are not intended to withstand road transport or winds over 50mph. Any boat with compromised shrink wrap left in dry lot will be removed completely to grevent any damage to surrounding boats and will only be re-wrapped at the owner's expense. **Battery Maintenance & Shore Power** We will not be responsible for dead or low batteries in the spring. After winterizing, unless we have special instructions, all shore power cords will be left as we found them. **Boats remaining at the marina and on a lift through the winter will have their batteries left as follows unless otherwise noted: Boats with hottery switches will be left in the off position with the battery still connected. Boats with no battery switch will have their negative cable disconnected. Boats not in slips will have their negative battery cable disconnected. Boats not in slips will have their negative battery cable disconnected. Boats with hot battery switch will have their negative battery cable disconnected. **Fuel Storage & Holding Tanks** All holding tanks must be emptied before bringing boat in for winterization (see below). We recommend that your boat's gas fank be at least 80% full to minimize condensation and fuel contamination. **Holding tank pump out is required prior to winterization services being performed. If customer has not pumped their system out prior o our mechanic arriving at the dock, we will make every attempt to return the boat to the Marina for a pump out and then return it boack to the slip. If this is necessary, there will be a charge of \$120 per hour plus a \$65 pump out fee. If the marina pump-out system is winterized, the customer understands that we will only add anti-freeze to the tank – however, a system that has not been pumped out into guaranteed to be safe from freezing. Ferms Cash Check Credit Card JM Account (tenant charge account must be active and current) hereby authorize the	Shrink wrap services will only be done at the shop on trailered boats – NO on-location or boat slip wraps available.
Battery Maintenance & Shore Power We will not be responsible for dead or low batteries in the spring.
